## Recycling Compact Fluorescent Light Bulbs

Many people are discovering the benefits of using energy efficient compact fluorescent light bulbs (CFLs). Not only do they use 50-60 percent less energy than standard light bulbs, but they also last up to 10 times longer.

In Minnesota, it is illegal to dispose of CFLs and other fluorescent light bulbs in the trash because these lamps contain mercury.

Although the City of Shakopee will be recycling many items on Clean Up Day, it will **NOT** be collecting CFLs or other fluorescent lights. Scott County homeowners may dispose of their used CFLs at the Household Hazardous Waste (HHW) facility:  
588 County Trail East  
(MN Hwy 282)  
Spring Lake Township

Visit [www.co.scott.mn.us](http://www.co.scott.mn.us) for additional information and hours of operation.

Arrow Ace Hardware and the Home Depot in Shakopee recycle household CFLs. Arrow Ace Hardware also is an authorized collection site for CFLs up to four feet long.
