General information

The Minnesota Pollution Control Agency (MPCA) is distributing this Environmental Assessment Worksheet (EAW) for a 30-day review and comment period pursuant to the Environmental Quality Board (EQB) rules. The MPCA uses the EAW and any comments received to evaluate the potential for significant environmental effects from the project and decide on the need for an Environmental Impact Statement (EIS).

An electronic version of the EAW is available on the MPCA Environmental Review webpage at: www.pca.state.mn.us/publiccomments. If you would like a copy of the EAW or have any questions on the EAW, contact the appropriate person(s) listed above.

Description of proposed project

The Shakopee Mdewakanton Sioux Community is proposing to develop a new Organics Recycling Facility at 12386 Chestnut Boulevard, Shakopee, Minnesota. The facility will process Source Separated Organic Material from residential and commercial yard and food waste into compost. The compost is either sold on its own or is blended with inert materials for resale as gardening and landscape products.
